

# UniPi - Unibody aluminum case for Raspberry Pi Model B

PRODUCT ID: 1610

DISCONTINUED

[DESCRIPTION](#)

[TECHNICAL DETAILS](#)

# DESCRIPTION

Give your Pi a Unibody with the UniPi case. Made in the U.S.A. by Pazdan LLC Tool & Die from solid Aluminum, this case protects your Raspberry Pi from damage and looks great in your modern/designer apartment! Some nice bonus design features allow this case to be wall mounted or stackable (like a stack of tuna fish tins)

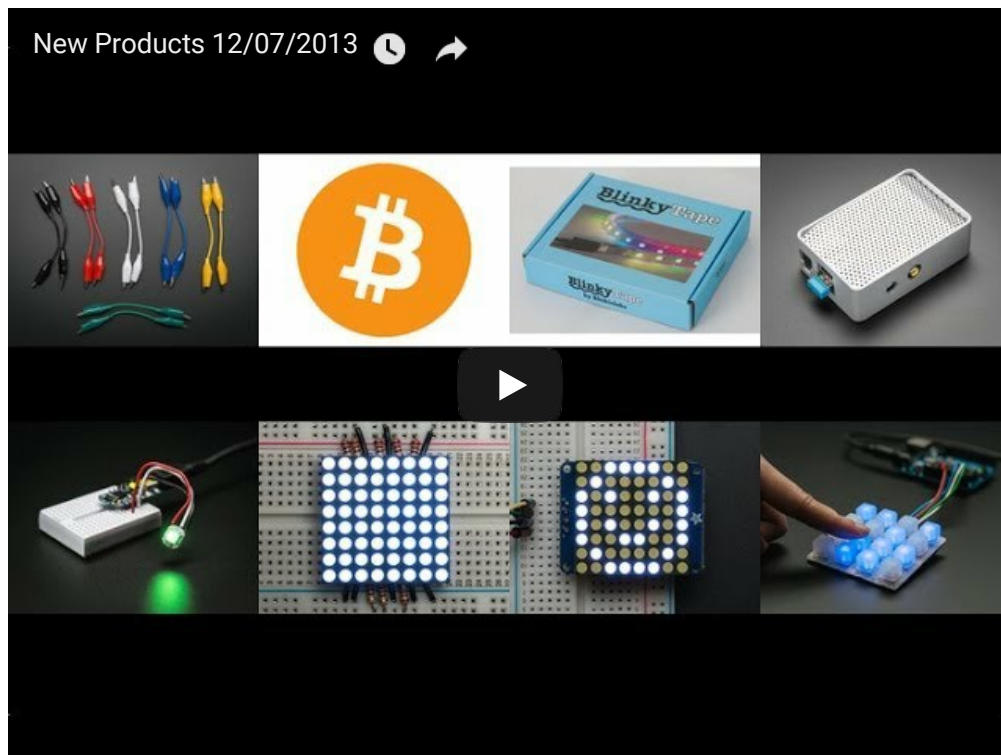

The Pi Holder case is milled by Pazdan LLC Tool & Die Machine Shop on CNC machines and comes with two toppers. One has a punchout dot design which looks cool, the other has slots for connecting GPIO cables, or Pi Cameras. [Check out their original kickstarter page](#) for a lot more details and 'making of' photos!

Comes with the following:

- Aluminum Bottom Half of a Pi Case
- Topper with 'mesh' look
- Topper with cutouts for GPIO cable, PiCamera, etc
- 2 Screws for attaching PI to case
- 2 Screws for wall mounting
- Large paperclip (to remove toppers)

This case works with Raspberry Pi model B, versions 1 and 2.

This enclosure is **not compatible with the Raspberry Pi Model B+**. Raspberry Pi computer not included!

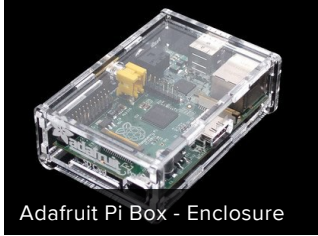

UniPi - Unibody aluminum case for Raspberry Pi Model B (3:23)

## TECHNICAL DETAILS

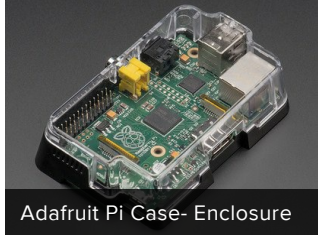

- Dimensions: 64.8mm / 2.5" x 97.7mm / 3.8" x 32mm / 1.25"
